

**WEST LAFAYETTE TRAFFIC COMMISSION**  
**WEST LAFAYETTE CITY BUILDING**  
**WEST LAFAYETTE, INDIANA**

**TIME:** 5:00 pm, Wednesday, June 21, 2006

**PLACE:** West Lafayette Board of Works Room

**PRESENT:** David Christian                      Bernadette Farris  
Carrie Ehresman                      Chris Pekny

**VISITORS:** Beth Cook                      Carl Griffin  
Wendy Field                      Gerry McCartney  
Jeromy Grenard

Jeromy Grenard called the meeting to order and determined there was not a quorum.

**OLD BUSINESS:**

**06-03 Street Light on Robinson**

Ms. Cook brought to the Commission two drawings submitted to the Engineer's Office by Duke Energy. The drawings show two alternatives for additional street lighting on Robinson Street between Rose Street and North River Road.

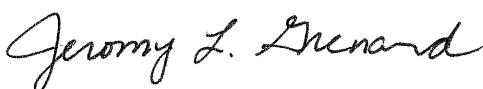

The first alternative adds one street light. The second alternative adds two street lights. Duke recommends the first alternative, adding light #030-377. This would provide the most coverage for the portion of the sidewalk that is dark. The second alternative, which would add two lights (#030-378 & #030-376) would illuminate the same sidewalk, but would have some overlap in the coverage area and would require two street lights.

Mr. McCartney and Mr. Griffin, two residents of Robinson Street, prefer the second alternative, but only want light #030-378 to be added. Mr. Griffin also requested that the City consider adding a "protector" to the street light to minimize light pollution.

Ms. Cook will discuss the street light options with the City Engineer and she will then contact Mr. Griffin and Mr. McCartney. Once a street light option has been selected, Mr. McCartney and Mr. Griffin will circulate a petition confirming neighborhood support for a new street light(s).

**NEXT MEETING: 5:00 pm, Wednesday, August 16, 2006.** Please note there will be **no July meeting.**

Respectfully Submitted,

Jeromy L. Grenard, P.E.  
Assistant City Engineer
